

JA More than Money[®]

JA More than Money is an after-school programme that teaches students about earning, spending, sharing, and saving money, and businesses they can start or jobs they can perform to earn money.

With six sessions, the program teaches young people about:

- * The role money plays in society.
- * Sharing, saving and spending.
- * Becoming a smart consumer.
- * Earning income by starting a business.

JA More than Money supports different learning styles by providing a variety of hands-on activities and a technological supplement. By the conclusion of the program, participating students will learn to:

- * Build on their understanding of money basics and apply those skills to daily life.
- * Recognize the significance of money management in making informed life decisions.
- * Develop a better understanding of the relationship between what they learn at school and their successful participation in a global economy.
